PFANNER®

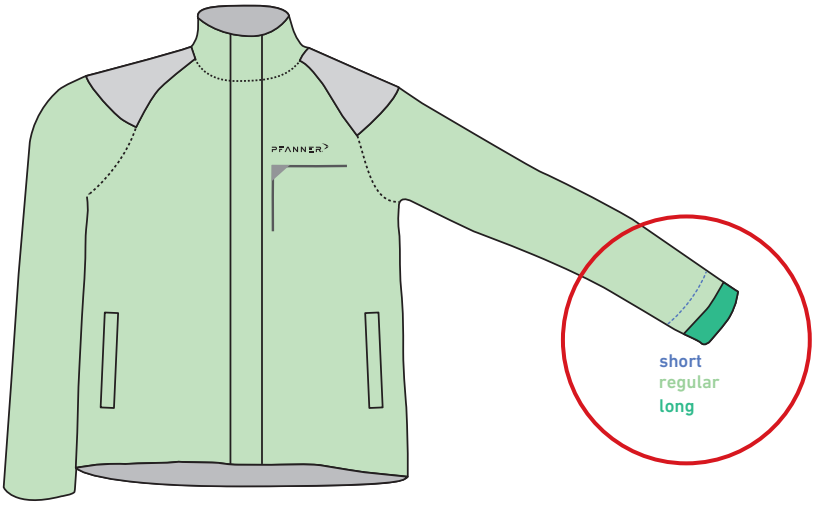
SIMPLE. SAFE. LIVING.

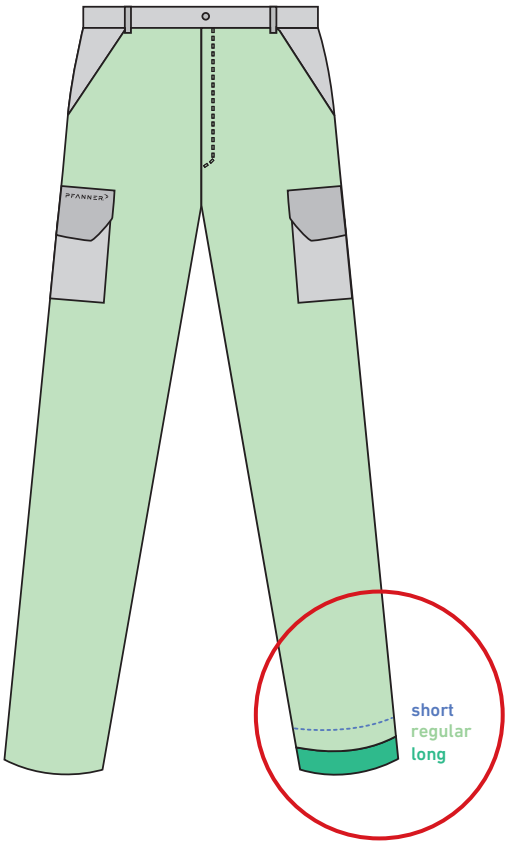
Custom-made jackets and pants from PFANNER®

A perfect fit – simple and efficient.
PFANNER® Schutzbekleidung usually offers jackets and pants in sizes ranging from XS to 4XL – for optimum comfort and maximum freedom of movement.

To ensure an even better fit in future whilst maintaining economically sustainable production, we have updated our policy on custom-made garments: individual made-to-measure garments are no longer available. Instead, we offer the option to select a suitable size (XS – 4XL) and have it specifically adjusted.

We can shorten or lengthen **sleeve lengths** and **leg lengths.**





This change has several advantages:

- Faster access to perfectly fitting clothing
- High accuracy of fit thanks to an optimised size base
- Reduced risk of incorrect orders
- Proven quality – efficiently delivered

Products in custom colours are available only on request and subject to a minimum order quantity of approx. 250 items.

If you have any questions or require assistance with choosing a size, please contact us.

Best regards,
your PFANNER® Team
